**Proposed Amendment of Class E Airspace; Little Rock, AR**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to amend Class E airspace at Little Rock Air Force Base (AFB), Little Rock, AR. Airspace reconfiguration is necessary due to closure of the air traffic control tower and associated approaches at Dennis F. Cantrell Field, Conway, AR. Dennis F. Cantrell Field would be removed from the airspace designation and legal description as it is no longer needed to describe the boundaries of Little Rock AFB. The FAA is proposing this action for continued safety within the National Airspace System (NAS). Additionally, the geographic coordinates for Little Rock AFB and Saline County Airport, Benton, AR, would be adjusted.

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in

Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace at Little Rock AFB, Little Rock, AR.

### **Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA-2015-3085/Airspace Docket No. 15-ASW-2.” The postcard will be date/time stamped and returned to the commenter.

### **Availability and Summary of Documents Proposed for Incorporation by Reference**

This document would amend FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### **The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending the Class E airspace area at Little Rock Air Force Base (AFB), AR. The air traffic control tower at Dennis F. Cantrell Field, Conway, AR, has closed, and approaches cancelled. This action would remove Dennis F. Cantrell Field, from the airspace designation and description for Little Rock AFB, as they are no longer needed to define its boundaries. Additionally, geographic coordinates for Little Rock AFB, would be changed from (lat. 34°54'59"N., long. 92°08'47"W.) to (lat. 34°55'03"N., long. 92°08'42"W.) and Saline County Airport, Benton, AR, coordinates would be changed from

(lat. 34°33'23"N., long. 92°36'25"W.) to (lat. 34°35'25"N., long. 92°28'46"W.). These minor adjustments would reflect the current information in the FAA's aeronautical database.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

### **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
